Holiday Outfit Budget Planner

Plan your own - every Christmas look under $150 | myootdfashion.com

How to use it: write your occasions and outfit ideas, tick every piece you already own before you shop, and buy only what is missing. Write the estimated cost before you shop and the actual cost after. Your cap is $150 per occasion ($750 for all five) - move money between occasions instead of going over. The Difference column fills in once you enter an actual cost (estimate minus actual).

Occasion	Outfit plan	To buy	Already own	Est. $	Actual $	Diff. $
Christmas Dinner		☐	☐			
Christmas Church		☐	☐			
Holiday Party		☐	☐			
Casual Family Day		☐	☐			
New Year's Eve		☐	☐			
Season total (all five occasions) Cap: $750 (5 x $150)						

Shopping list - only what you still need

Christmas Dinner

Christmas Church

Holiday Party

Casual Family Day

New Year's Eve

Wear it again - after the holidays

Casual Family Day

New Year's Eve

Tip: shop your closet first, then check current store prices before you buy anything new.
Print one copy, keep it in your bag, and cross off each piece as you buy it. Fill it in on screen in Adobe Acrobat Reader for automatic totals.
